HEAD SOLID SORE SETTLINGUPRAN

Awful Suffering of Baby and HARNEY COUNTY BEING Sleepless Nights of Mother.

CURED BY CUTICURA

Skin Fair as a Lily with no Scar to Recall Awful Sore Writes Mother.

"I herewith write out in full the be-ginning and end of that terrible disease, a, which caused my babe untold ing and myself many sleepless

"My babe was born seemingly a fair, healthy child, but when she was three weeks old a swelling appeared on the back of her head, and in course of time broke. It did not heal but grew worse, and the sore spread from the size of a dime to that of a dollar. I used all dime to that of a dollar. I used all kinds of remedies that I could think of, but nothing seemed to help; in fact, it grew worse. Her hair fell out where the sore was, and I feared it would never grow again. It continued until my aged father came on a visit, and when he saw the baby he told me to get Cuticura Boap and Ointment right away.

"To please him I did so, and to my surprise by their use the sore began to head over the hair grew over it, and to-day she has a nice head of hair, her skin is as fair as a lily, and she has no near left to recall that awhil sore, and it is over eight months and no sign of its returning."

Mrs. WM. RYER, Elk River, Minn.

"Care permanent." So writes Mrs. Ryer, Feb. 25, 1903, six years later:

"Your letter of the 19th inst. received, asking in regard to the cure of my baby some six years ago. Well, the disease has never returned to her head which at that time was a solid sore on top and down the back. Once or twice since then a patch has come on her hand near the wrist, but it finally disappeared after proper treatment with Culcura."

immense Holdings in Southeastern Oregon Are Being Converted Into -Raising Stock by Inrge Syndicates is Not so Profitable as Formerly Because of the Increasing Value of Land for Farms

A Harney county stockman, who is in the city to look into market prices of beef, says that radical changes are taking place in that region, says the Oregon Daily Journal.

"The big stock companies are ios-ing," said ite. "The time has passed when they are able to control thous-ands of acres of good grazing and meadow land and realize a profit on the cattle industry. The result is that

the dig ranches are splitting up.
"I believe next year the entire
Glenn-French holdings of Harney
and Malheur will be divided into 160
and 320-acre tracts for sale to the setler. It is common information also hat the Pacific Livestock company. which has the interests once managed by Lux and Miller, will begin the partitioning process within another year or two. Harden and Riley, owning extensive land on Harney lake, sold to an Eastern crowd at a fancy price. but the newcomers are losing on the game and I think would be glad to unload.

"There are other cattle barons of the old time who are disappearing. John Devine has immense possessions of land, but the settler is destined to cultivate most of it. In Lake and Klamath counties the same tendency

"Ruising beef by syndicates has beme unprofitable because land is too valuable and they are getting ready to turn their princely possessions over to the multitude of settlers who await the time when they may secure a tract capable of being cuitivated and managed by one man.

"The result may be a large infinx of settlers. Take, for instance, the Glenn-French holdings in Harney county. The Diamond and Pea ranch sections on Dunder and Biltzen river will accommodate several hundred families when thrown open to pur-chase. I have ridden over these tracts and found mile upon mile of beautiful mesdow and arable land. It will grow the best of grain and hay and also fruits of the more hardy na-

"The river is fed by Stein's mountain, a high snow-capped range. Pete French got hold of many thousand acres here in early days, while working for old Doc Glenn of California, and in the days when there was no sheep and few settlers to encroach upon the range, they made immense fortunes. Both of the original men have been killed and the present company is unable to realize the necessary profit to continue. sary profit to continue.

"When Harney county has her cat-tle barons dethroned and the settler is given an opportunity, that community will advance as never before. I believe such a period of development is at hand and the purpose of the Glenn-French management will be the forerunner of many more."

HIGH CLASS DRUGGISTS

AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. The sarning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.
